

POLICE REFORM NEEDED, HESSE SAYS IN REPORT

Speedy Trials and Drastic Penalties Urged on City's Heads.

SOMETHING WRONG, CAPPER DECLARES

Trials for Year Four Times Total of 1918; Dougherty Gives His Views.

Recognizing the need of a reform to stem the growing tide of lawlessness within the Washington police force, Maj. Edwin B. Hesse, the superintendent, has submitted a report to the District Commissioners recommending speedier trials and far more drastic punishment for guilty policemen, it was learned yesterday.

The trial board record shows, that in the last twelve months a total of 454 cases were heard by the Police Trial Board, four times as many as were heard ten years ago. In that time the size of the force has not even doubled. Senator Arthur Capper, chairman of the Senate District committee, said yesterday that he was "surprised" to note the large increase.

"I had no idea that the local force had such a record," the senator said. "Undoubtedly something is wrong. However, I have confidence in Commissioner Dougherty and Maj. Hesse, and I believe they will do everything to remedy the situation."

Recommendations by Hesse. In his report to the Commissioners, it was learned yesterday, Maj. Hesse urged that prompt dismissal from the force be made the fixed penalty for a number of offenses which now are punished simply by exacting fines.

Among the offenses which would call for dismissal would be intoxication, continued neglect of duty, and continued inefficiency. Dismissal also would be the fate of a policeman convicted in a court of competent jurisdiction.

The trial board records showed that 39 policemen have been charged with intoxication in the last year, 30 more than were haled before the trial board for this offense in the pre-Victorian year of 1916. A majority of the 39 found guilty of being drunk in the last year were let off with a fine of from \$50 to \$100.

Should Maj. Hesse's reform program be adopted, a policeman would be dismissed from the force on his first conviction for intoxication. This also would be the penalty for a policeman who failed to report the existence of a bootleg or gambling "joint" known to have been operating on his beat over a long period of time.

Could Appeal to Court. If Maj. Hesse's program of fixed penalties should be adopted, the policeman, of course, would have the right to appeal from a trial board decision just as he has now. This right is guaranteed by law.

At present many policemen succeed in having their trials continued over long periods. Maj. Hesse would stamp out this practice as far as possible. Commissioner Proctor L. Dougherty, who has jurisdiction over the Police Department, said yesterday that Maj. Hesse's recommendations would be considered by him and his associates at a meeting "sometime in the fall."

The commissioner seemed to be a bit dubious about the efficiency of Hesse's recommendations.

One Reason for Increases. If the penalties were made more harsh, he pointed out, it might be more difficult to obtain a conviction.

Commissioner Dougherty said there was no doubt but that the type of policeman now coming on the force is inferior to the type that was obtained in years gone by.

This fact, together with the fact that the inspectors are more vigilant and arrest policemen for offenses that were not listed in the old days, Commissioner Dougherty said, explains the heavy increase in trial board cases.

Supply of Eggs for City Is Roasted by Mistake

Novosibirsk, Siberia, Sept. 2 (A.P.)—Several hundred thousand eggs, enough to feed this city for many a winter day, have been destroyed in the great plant of the Central Workers Cooperative, where they were stored a few days ago.

Preparing for winter, the workers had stacked boxes containing 3,500,000 eggs into the plant. Thousands of crates were stacked above the boilers, and it was these that roasted, causing a loss of thousands of rubles.

Minister Sterling's Car Stolen, Found in Dublin

Dublin, Sept. 2 (A.P.)—The new \$15,000 limousine of United States Minister Frederick A. Sterling, was stolen from outside the Abbey Theater last night while the minister was inside with a party of guests.

After an all-night search, police found the car today at Shankill, near Dublin. It had not been damaged. Police believe the escapee to have been committed by persons unaware of the identity of the owner.

French Air Minister Dies in Burning Plane

Four of Crew Also Killed When Bokanowski's Ship Crashes.

Paris, Sept. 2 (A.P.)—Maurice Bokanowski, French minister of commerce and aviation, crashed to death and his body was cremated in an airplane accident near Toul this morning. Four others, Pilot Gabriel Hanlin, Mechanic Jean Vidal, Wireless Operator Henri Williams, and general secretary of the airplane company, Edouard Lefranc, also perished.

Bokanowski spent last night at the country house of Premier Poincare at Compiègne, where he attended an informal meeting of the cabinet yesterday celebrating the premier's sixty-eighth birthday and also the second anniversary of the formation of the national union cabinet. This morning the minister motored to the aviation field, 25 miles away, and took his place in a plane especially ordered for him from Le Bourget.

The machine, a Spad biplane with an air-cooled motor of 380 horsepower, took off laboriously with its motor coughing, but rapidly gained altitude. It was exactly 9:15 when Capt. Houdert, who was escorting the minister's ship in a military plane, noted the Spad suddenly veer to the right when about

1,500 feet aloft and go into a nose-dive. The plane rapidly descended to the ground and burst into flames. The machine, which had been in the air barely five minutes, carried 700 liters of gasoline and was headed for Clermont-Ferrand, where Bokanowski was to have been received.

CITY WILL SEE 5,000 FIREMEN IN PARADE

Rains, Weather Man Sees, May Pass Away Today Before Line Starts.

Warm rains will be the elements' unsolicited contribution to Washington's Labor Day festivities today, according to the Weather Bureau's forecast.

The weather may relent and clear, however, so as not to mar the big street parade on Pennsylvania avenue beginning at noon, planned by local firemen as the feature of the day's celebration, according to last night's forecast.

Although many Washingtonians already left the city to spend the three-day holiday away from home, their places are expected to be taken by the thousands of out-of-town folk attracted to the National Capital by the number of festivities planned for the day and night.

Two of the out-of-town fire companies which will participate in the parade arrived here last night. The Frederick (Md.) Company got in shortly before 8 o'clock, and the Winchester (Va.) Company made its appearance shortly before midnight. The Newark (Del.) Company is expected to arrive in company with a band from that city at 8:30 o'clock this morning.

John Berger, only living member of the Baltimore Volunteer Fire Department, who will march at the head of the parade, arrived in Washington yesterday and is quartered at the marshal's headquarters. He is 71 years old.

Telegrams from many companies all over this part of the country have been received by Sgt. A. J. Bargagli, marshal, informing him that they are on their way.

Following the parade up the Avenue the large number of bands which will participate in the festival will gather on the Ellipse for a competitive concert. This will be followed at 4:30 o'clock by a decorated baby carriage parade on the Ellipse and the celebrations for the day dedicated to America's tollers will be brought to a close by a mardi gras and costume parade at 8 o'clock on the Ellipse.

One hundred visiting fire companies will be here this morning to participate in the parade.

G. O. P. Women, at Parley, Must Bring Bathing Suits

Men Have Smokers, so Mrs. Sabin Will Give Swim Party.

New York, Sept. 2 (A.P.)—A hundred and twenty "lady politicians"—State committee women, county and district leaders of New York—will go this week to the Southampton, L. I., estate of Mrs. Charles H. Sabin vice chairman of the Republican national committee, to participate in a new kind of political confab.

When they received the call to the meeting, from Miss Sarah Schuyler Butler, vice chairman of the State committee, they found at the end of the summons this message from Mrs. Sabin: "And bring your bathing suits."

Around headquarters, the men refer to the meeting as "Mrs. Sabin's swimming party." They look amused. And their expression on the faces of some of them indicates a slight, but nevertheless real, skepticism as to the amount of Republican business that is going to be accomplished at that meeting.

But Mrs. Sabin says: "We are merely carrying out a man-established custom, that's all. Ever since the game of politics started, men

SEWER CONTRACTOR FOUND SHOT DEAD

W. L. D'Olier, Clubman, Was Witness in New York Graft Inquiry.

Special to The Washington Post.

New York, Sept. 2.—The shadow of murder was cast in startling silhouette again today over the malodorous Queens sewer graft scandal. Partly hidden by shrubbery, the body of William D'Olier, millionaire clubman, of prominent listing in the social register, and a star witness in impending resumption of grand jury investigation into the sewer pipe graft case, was discovered lying in an isolated spot beside the highway between two cemeteries in Maspeth, L. I.

D'Olier had been shot through the head. In his right hand, which was folded over his breast, was a revolver. Examination showed a fatal bullet had been fired from it a few hours before. "Plainly a case of suicide," declared Inspector John J. Gallagher, in charge of police who investigated the death mystery and sought to suppress details of what they learned.

Yet the place where D'Olier's body was found, a lonely spot, long has been a port of missing men, for murder victims "taken for a ride." At least five bodies of such victims have been discovered there in the last two years.

Only two drops of blood were on the ground beneath the body, a surprising circumstance in view of the gaping head wound. D'Olier's clothing, ordinarily immaculate, was soiled and stained, and one lapel was torn, evidence that his body might have been hauled from an automobile.

"I am sure my husband was murdered," sobbed the beautiful widow of D'Olier at her Pelham Heights home after the news was broken to her. Mrs. D'Olier, left with two small children, is soon to become a mother again.

When these and additional facts were brought to his attention, Assistant District Attorney Thomas F. Thornton, of Queens, tonight declared: "We have begun a thorough investigation into the theory that Mr. D'Olier was 'taken for a ride.' There certainly are several suspicious circumstances in support of the belief that this may be a case of murder."

Stevens Pass Fire-Fighters Lose Battle With Blaze

Yreka, Calif., Sept. 2 (A.P.)—Efforts of 1,000 men were unavailing late today as the Stevens Pass fire continued to rage over 23,000 acres of brush and timber land. Intermittently the blaze would jump the fire lines and the fighters would have to form a new front.

Every ranger station in the Shasta National Forest was rendered useless by the heavy pall of smoke. In the City of Mount Shasta winds had blown the smoke so low that it was almost impossible to see for more than a block.

Fargo Mayor Completes Air-Rail Service Trip

New York, Sept. 2 (A.P.)—Mayor John Dahl, of Fargo, N. Dak., arrived today from Chicago, the first West-East passenger to reach here on the newly inaugurated transcontinental air-rail service. He said he had traveled by rail from Fargo to St. Paul, Minn., thence by plane to Chicago, and covered the last stage of the trip by rail.

Pennsylvania Railroad officials, who met the mayor at the station here, said the new air-rail service when completed will provide a 48-hour passenger service from Coast to Coast.

BOOTLEG CAR ACTIVITIES BARED IN PHILADELPHIA

Prosecutor Asserts Man Ruled Rum Business With Iron Hand.

HANDLED ALL FUNDS; DICTATED MURDERS

Grand Jury Will Be Told of Paymaster General's Part in Police Graft.

Philadelphia, Sept. 2 (A.P.)—Existence of a grand arbiter, or "czar," who settled disputes between rival bands of Philadelphia rum runners, fixed prices for contraband and dealt out all moneys to pay for protection was revealed today by District Attorney John Monaghan in reviewing fresh evidence, to be presented to the grand jury investigating the activities of gangsters and bootleggers when it reconvenes on Tuesday.

This man, Monaghan said, "with the connivance of the police," held tremendous power and could even order an objectionable gangster railroaded to jail or a gunman slain on the highway. His identity, if known, was not revealed.

The District Attorney said his investigators this week would look into the operations of a number of organizations doing business as building and loan associations, expressing the belief that the "B. and L." attached to the titles of many of these concerns, in reality stood for "beer and liquor."

Trail Leads Near "Czar." He also stated that much time would be devoted to examining Federal permits issued for the withdrawal of alcohol, great quantities of which he said had found its way into bootleg channels.

Monaghan announced that a certified check, used in payment for a large employed in the big Rancocas Creek liquor landing in October, 1925, had been traced to one of the fictitious bank accounts under which Philadelphia bootleggers had deposited more than \$10,000,000 within the last year. The check was located at the Union Bank & Trust Co. here.

The prosecutor declared that the investigation was "drawing nearer and nearer" to uncovering the identity of and exposing the power wielded by the "czar of rum-runners."

Mayor Promises Help. "When there is a dispute among the bootleggers," he said, "they take their lawyers down to the 'courtroom' and there argue it out before the ruler. What he says goes. If one of the parties concerned does not like his decision and refuse to abide by it—well, things happen, that's all."

Monaghan said he was investigating reports that certain gunmen and gangsters had been "framed" and sent to jail on evidence secretly furnished by the very underworld of which they were a part and that many of the gang killings had been ordered and directed from a central source.

Mayor Harry A. Mackey, in a statement given out at his summer home in Atlantic City tonight, declared he would insure complete cooperation of the police with the district attorney and grand jury in their investigation.

Aid Reaches Distressed Vessel Off Cape Colony

Port Elizabeth, Cape Colony, Sept. 2 (A.P.)—The S. S. Clan Landon, sailing from Madagascar to London, sent out SOS messages this morning reporting that the ship had encountered mounting seas between East London and Port Elizabeth, and had developed a list to the starboard. One seaman had been washed overboard and three lifeboats torn from davits. It was said the ship had lost its decks and was incessantly awash.

The steamer Kipaki later reported that she was standing by the distressed ship and that both vessels were headed for Port.

Victim Crushed Under Car.

His head was crushed as the car rolled over on top of him. The car belonged to Mr. and Mrs. Steve Glavaris, who were occupants of the car at the time. Mr. Glavaris received lacerations.

Following the accident, a coroner's jury, called by Justice of the Peace S. S. Phillips, viewed the body, and will hold the inquest tomorrow night at 8 o'clock in the Hyattsville Police Court. The Casualty Hospital ambulance in Washington and the Hyattsville unit of Prince Georges rescue squad were summoned to the scene of the accident, but Voudouris was dead upon their arrival. His body was removed to F. Gasch's Sons' undertaking establishment in Hyattsville.

Leut. J. A. Murphy, of Fort Leonard Wood, Md., witnessed the accident and gave a report to the Maryland State police. No effort was made to learn the identity of the driver of the automobile who drove out in front of Voudouris, as the police did not consider him responsible, it was said.

Margaret O'Conner, 13 years old, 3146 Dumbarton avenue northwest, was knocked down at Wisconsin avenue and O street northwest, yesterday afternoon by an automobile driven by Camp Jacobs, colored, 3408 Reservoir road northwest. The girl was taken to Georgetown Hospital and treated for bruises on her head. Her condition is not considered serious.

2 DIE, 7 HURT IN CAR WRECKS NEAR CAPITAL

Frank Joseph Burke, 21, Is Instantly Killed on the Marlboro Pike.

SPARROWS POINT MAN DEAD IN UPSET AUTO

Coroner's Jury Charges Reckless Driving in Crash That Had Washington Victims.

Two persons were killed and seven injured yesterday in automobile accidents on nearby Maryland roads.

Frank Joseph Burke, 21 years old, 1018 Twenty-first street northwest, was killed instantly in a head-on collision between an automobile and a truck on the Marlboro Pike near Mount Zion, Md., early yesterday morning, in which six others were injured. The injured were brought to Washington hospitals for treatment.

Nicholas Voudouris, 27 years old, 1337 Beachwood road, Sparrows Point, Md., the second victim, died of a fractured skull suffered when a car he was driving overturned in a ditch on the Washington boulevard, in Riverdale, yesterday afternoon. Mrs. Steven Glavaris, an occupant of the car, received minor injuries.

Attempt to Pass Fatal. Burke was killed when a car in which he was riding, driven, police say, by Vincent Ready, 19 years old, 1134 Twenty-fifth street northwest, attempted to pass another car on the road and crashed into a truck coming in the opposite direction, which was driven by James Davis, colored, 27 years old, of Baltimore, Md.

Both the car and the truck were demolished and the occupants of both injured. Burke was sitting on the front seat between Ready and Mike Niland, 930 Twenty-sixth street northwest. The impact of the crash threw him against the frame of the windshield, crushing his head beyond recognition. Ready was brought to Sibley Hospital for treatment and Niland to Casualty.

Ready was attempting to pass an automobile owned and driven by Robert Williams, 27 years old, 812 E street northwest. Schmidt and his wife, the sole occupants of their car, narrowly escaped injury when the glass of their car was shattered as Ready's car climbed upon the rear of Schmidt's.

Schmidt, seeing that the accident was inevitable, called to his wife to duck, and brought his car to a stop. The truck was occupied by Davis and his 2-year-old son, James G. Davis, and two colored women, Helen Wilson, 16 years old, and Nellie Wilson, 27 years old, all of Baltimore. All four were brought to Emergency Hospital in a car driven by W. R. Simpson, 1232 North Carolina avenue northeast. The Wilson woman has a possible broken back and Davis a sprained shoulder. The other two suffered bruises and cuts.

Reckless Driving Blamed. After treatment at Casualty Hospital for a broken nose and a lacerated face Niland was taken to Gallinger Hospital, where Washington police are holding him for Maryland authorities.

Ready, in Sibley Hospital, is also held. His injuries are considered serious, although he was resting well last night. A coroner's jury, presided over by John Anderson, of Annapolis, yesterday morning, held that Burke came to his death as an accident caused by "the reckless driving of the operator of the Ford automobile." The three young men were riding in a car of that make.

Burke's body was removed to an undertaking establishment in Annapolis and later brought to his home here. A string of cars lined the Washington boulevard when Voudouris overturned his car in a ditch. He had gotten out of the line of cars in an attempt to push ahead of those in front of him. As he did so a car crashed into him, and he was killed.

Voudouris then tried to get back into the stream of cars and ran off the road. Victim Crushed Under Car.

His head was crushed as the car rolled over on top of him. The car belonged to Mr. and Mrs. Steve Glavaris, who were occupants of the car at the time. Mr. Glavaris received lacerations.

Following the accident, a coroner's jury, called by Justice of the Peace S. S. Phillips, viewed the body, and will hold the inquest tomorrow night at 8 o'clock in the Hyattsville Police Court. The Casualty Hospital ambulance in Washington and the Hyattsville unit of Prince Georges rescue squad were summoned to the scene of the accident, but Voudouris was dead upon their arrival. His body was removed to F. Gasch's Sons' undertaking establishment in Hyattsville.

Leut. J. A. Murphy, of Fort Leonard Wood, Md., witnessed the accident and gave a report to the Maryland State police. No effort was made to learn the identity of the driver of the automobile who drove out in front of Voudouris, as the police did not consider him responsible, it was said.

Margaret O'Conner, 13 years old, 3146 Dumbarton avenue northwest, was knocked down at Wisconsin avenue and O street northwest, yesterday afternoon by an automobile driven by Camp Jacobs, colored, 3408 Reservoir road northwest. The girl was taken to Georgetown Hospital and treated for bruises on her head. Her condition is not considered serious.

HASSELL PLANE CREW SAFE ON GREENLAND; MADE FORCED LANDING

BERT J. HASSELL AND PARKER D. CRAMER.

Queen Is Now Sought For King of Albanians

Zogu's Mohammedan Faith Likely to Prevent Alliance With Princess Giovanna, of Italy, or Helena, of Roumania, Tirana Believes.

Tirana, Albania, Sept. 2 (A.P.)—While Christian churches and Moslem mosques alike prayed today for his success as the ruler of the newly created Kingdom of Albania, Ahmed Bey Zogu spent his first day as king quietly with his venerable mother, who under the revised constitution becomes the country's dowager queen.

Throwing aside the conventional civilian garb, he wore as president of the republic, the 34-year-old commoner donned the uniform of the commander in chief of the army as a more appropriate dress for his exalted position of king. In this splendid attire he received the homage of his subjects and heard the address to royalty, "your majesty."

As he sat beside his proud mother—who is "her royal highness"—in her humble cottage adjoining Tirana's "white house," Ahmed Bey Zogu, who like the new Shah of Persia, rose almost from the status of plebeian to the position of potentate, was a striking figure of youth and aggression.

He whom fate had raised to the kingly power overnight affected neither crown, scepter, nor jewels, but his strong earnest features gave a promise of the fulfillment of his undertaking to parliament, "to consecrate his life to Albania and to rule the country wisely, justly and tolerantly."

Although carpenters have not yet had time to build a throne, a hastily made royal standard now floats over the executive mansion and Albania seems in a jubilant mood at the change which has taken place in its government.

One of the novel features of Zogu's elevation to regal status is that his

HOOPER AND "BABE" FRIENDS, THEY SAY

Statements by Both Clear Up Incident at the Ball Park Last Saturday.

RUTH DENIES POLITICS

"Babe" Ruth and Herbert Hoover not only have made up, but each has declared that there was nothing to make up.

Questioned concerning his refusal Saturday to pose with the Republican nominee for President, the "Babe" declared that he "labored under a misunderstanding," while yesterday Mr. Hoover issued a statement declaring that he could "certainly sympathize with Babe Ruth for not wanting to hold up the game for mere photographs."

Declaring that he had only learned of the incident from the papers, the nominee continued: "As an earnest baseball devotee I long have admired Babe Ruth's batting ability and I look forward with pleasure to a picture with the champion home-run hitter of all time."

The Bambino in issuing his statement denied that politics had anything to do with the matter.

"Politics had nothing to do with it," he said. "The ball game was about to start; Mr. Hoover was the center of attraction, and I thought it would look odd for me to go to his box at that time."

"I hope Mr. Hoover will be gracious enough at some future time to permit me to present myself to him."

Thus, apparently, ends the incident which caused some heartburnings to Miller Huggins, manager of the Yankees, Clark Griffith, president of the Washington Baseball Club, and probably to some members of the Republican party organization.

Just as the game was about to start Saturday, it was reported, a photographer procured from Mr. Hoover's secretary the nominee's consent to pose for a picture with the champion home-run hitter of all time.

It was further reported, however, that the photographer was unable to procure the "Babe's" consent. Ruth was declared to have said that it was "all a question of politics."

Atlantic Fliers Reach Mt. Evans Observatory, Radio Says.

BOTH MEN UNHARMED AS SHIP CAME DOWN

Lived on Pemmican Two Weeks Trekking to Settlement.

ROCKFORD, HOME CITY, GOES WILD OVER NEWS

Wife of Stockholm Expedition Leader Wakes Children for Happy Word.

New York, Sept. 2 (A.P.)—The New York Times in a copyrighted story tomorrow will say that it has received word from Prof. William H. Hobbs, who is at the University of Michigan Observatory at Mount Evans, southern Greenland, that Bert Hassell and Parker Cramer, crew of the America-to-Sweden plane, Greater Rockford, are at the observatory, unharmed.

The two aviators, who have been trekking to civilization for the last two weeks after making a forced landing at Point Sukkertoppen, southern Greenland, were uninjured.

Their immediate rescue was accomplished by members of Prof. Hobbs' party, who sighted smoke signals sent up by the aviators and went in a boat across a fjord to get them.

Tonight Hassell and Cramer were at Camp Lloyd. They reported their plane undamaged. They said they had lived on reduced rations of pemmican for the two weeks.

Search Parties Organized. When word of the sighting of the fliers on August 19 reached Prof. Hobbs he immediately organized land searching parties for the aviators. The United States Coast Guard cutter Marion and the Danish coastal vessel Islandfalk also took up the search.

Prof. Hobbs established a base at Holstenborg, Greenland, on July 4. He is accompanied by seven American assistants and several natives of Greenland. The purpose of his expedition is to continue experimental work carried on in preceding years by which it is hoped to establish a system for forecasting Atlantic weather by measuring the force and direction of gales which blow from the Arctic.

The expedition cooperated with the Hassell flight by providing a landing field at its base. Hassell carried instruments for meteorological observations and was to have worked with the Hobbs expedition.

Last Seen August 18.

Point Sukkertoppen is a noted headland on the west coast of Greenland in latitude 65.22 north, longitude 53.05 west.

It is about 50 miles southwest of Mt. Evans, for which point the fliers hopped off from Cochrane, Ontario, at 11:12 p. m. eastern standard time, August 18.

The following morning the aviators were sighted flying north-northwest over Fikeneset. Point Sukkertoppen is about 200 miles north-northwest of Fikeneset.

Rockford Wild With Joy.

Rockford, Ill., Sept. 2 (A.P.)—Rockford tonight went wild with joy when word of the safety of Bert Hassell and Parker Cramer, pilots of the airplane Greater Rockford, which disappeared on a flight to Stockholm, Sweden, was received.

A spontaneous celebration took form on the streets as throngs rushed downtown for the latest word concerning the two fliers, whom they had believed lost.

First word of the safety of the two men was received over the radio by citizens of Rockford.

Factory whistles were sounded and a continuous din kept up as cheers of

The celebrants mingled with the shriek of whistles.

Mrs. Bert Hassell was hysterical to-night.

"I would have kept my hope if he had been gone a year," she said, while hundreds of laughing, shouting people swirled around her little cottage.

The three children of the Greater Rockford's pilot were awakened. The oldest is 5 years old.

"Daddy's coming home soon," their mother told them.

Wife Had Remained Calm.

Mrs. Fannie Cramer, mother of Parker Cramer, was so overcome with joy that she hardly could express her happiness. "I'm so glad," was all she could say.

Throughout the days of doubt, Mrs. Hassell had remained calm. Neighbors said she comforted them more than they could comfort her.

But tonight her self-control was gone. She laughed and cried alternately. "If wonder how long it will be before he gets home," she said.

The Greater Rockford took off on its unsuccessful flight after a summer of ill luck which prevented it from leaving the ground.

During a trial flight early in the summer, the plane landed in a corn field in Iowa and was damaged so badly it had to be shipped to the Stinson-Detroler factory.

On another flight to Memphis, Tenn., the ship was forced down because of lack of fuel.

Again Damaged in Crash.

Plans were finally completed for the take-off on July 28. After a beautiful run the Greater Rockford took the air and disappeared in the mist at the end of the flying field. Five minutes later another airplane returned to the field to tell the throng that the Greater Rockford had been forced to land in a cornfield five miles away.

The plane again was damaged in the crash, but Bert Hassell, the pilot, and Parker Cramer, the navigator, escaped injury. The Greater Rockford was returned to the factory for repairs and two weeks later, August 16, it again hopped off, with Cramer, Ontario, its first destination. Its take-off from Cramer was delayed for two days by rain.

After taking off from Cramer, the plane's radio was broken and frequent intervals until signals suddenly ceased at 8 o'clock Sunday morning, August 19, when it was about 75 miles off Cape Cod, on its way to its second destination, Mt. Evans, Greenland.

Mrs. Hassell Notified.

Grand Rapids, Mich., Sept. 2 (A.P.)—Mrs. B. S. Kenyon, of this city, tonight said she had talked over the telephone with Mrs. Bert Hassell, at Rockford, Ill., and that she had received a letter from her husband, transmitted through the courtesy of the New York City Police.

A friend of the Hassell family, did not reveal the contents of the message.

Flier, 17, Plans Easy Stage Solo Hops Across U. S.

Oakland, Calif., Sept. 2 (A.P.)—Richard E. James, 17-year-old youth from Whitehouse, N. Y., arrived here today to prepare for his solo flight by easy stages from the West Coast to the Eastern seaboard. He expects to take off from Oakland on Tuesday, August 22, and cross the continent in about 20 jumps. The youth, one of the youngest fliers in the country, is using a Traveler plane with a Siemens motor.

On his trip west, young James was accompanied by Oliver James, an old-time pilot of the same type of plane, at the controls and helped map out a route for the return journey. They arrived in Sacramento last night from Reno.

QUEEN FOR KING ZOGU IS NOW BEING SOUGHT

CONTINUED FROM PAGE 1.

Albania became a full princess and his brother prince. These are the only titles of nobility which he has been recognized in Albania. The revised constitution provides that the succession to the Albanian throne will fall to Zogu's first male heir. As the new monarch is single, his promoters already are casting about for a queen to share the throne with him and rear him a son. In this connection Princess Giovanna, daughter of the King of Italy, and the beautiful 19-year-old Princess Jeanne of Roumania have been mentioned, but as Zogu is Mohammedan it is feared neither such marriage could take place unless the new monarch were willing to become a Christian.

The national assembly will meet several sittings to drafting a labor bill, the constitution, which it is believed now, will be held December 24, the fourth anniversary of Zogu's triumph entry into Tirana after his overthrow of the semibarbaric ruler by revolution.

Tirana is in quite a festive mood at the new status of the city. The city, which has a population of about 12,000, has been suddenly swollen to a city of perhaps half a million people, with no accommodation for governmental officials, but with lights and fireworks while its brass bands and confetti reminded one of Coney Island on a holiday.

Last night thousands of paraders surrounded the cottage of Zogu's mother and thanked her for giving birth to such an illustrious son. The while a group of Albanian's prettiest girls presented the king himself with a huge crown of flowers.

In foreign diplomatic quarters here it is feared the question of Zogu's coronation may be complicated by his acceptance of the title of King of the Albanians. Certain European countries, particularly Yugoslavia and Greece, which have large Albanian populations, are unwilling to recognize Zogu by that broad title.

M. Korsa, a member of the present Albanian cabinet, was introduced under the formation of the first cabinet under the newly designated kingdom today.

Korsa's designation as premier came as a big surprise to governmental circles, inasmuch as the present cabinet has not yet resigned. It is not expected to meet with much sympathy because of a general lack of popularity of Korsa. It is thought, however, he will hold power for a short time, at least until new elections are held, especially since the new assembly will hardly last more than a month.

Italy, which is the first power to recognize the new regime, sent its minister at Tirana today to congratulate the new king in the name of King Victor Emmanuel, Premier Mussolini and Italian people. Other foreign ministers here have asked their governments for new credentials, and it is believed that even Yugoslavia will recognize the new monarchy. Foreign Minister Vroni is understood to have given an assurance to the Belgrade government that Zogu's title as King of All the Albanians is more academic than real, Albania never having claimed sovereignty over its subjects living in other countries.

Belgrade, Yugoslavia, Sept. 2 (A.P.)—The Yugoslavian foreign office informed the Associated Press today that this government will protest the election of Ahmed Bey Zogu as King of Albania. It was said, however, no official action would be taken until official notification has been received.

Peru Gives Order of Sun To Stannard for Inca Tunes

Head of U. S. Army Band Honored for Music Played Here.

The Order of the Sun, coveted Peruvian honor, has been awarded Capt. William J. Stannard, leader of the United States Army Band, according to word received last night by officials of the Pan-American Union.

The honor was conferred by the governing committee of the order at a special session held in Lima August 18, when Dr. Agostino B. Leguia, president of Peru, and grand master of the order, presided.

Capt. Stannard and the members of the Army Band have shown marked interest in the music of Peru, not only in the works of modern masters, but also in the ancient melodies of the Incas.

These selections have been featured in the 41 concerts of Latin-American music played in Washington under the auspices of the Pan-American Union. These programs have been broadcast and have been heard by hundreds of thousands of persons throughout the United States.

The Order of the Sun was founded by one of the great liberators of South America, General Bolivar, in 1825, and in 1923 was reestablished by an act of congress of the South American republics.

The United States Army Band has selected 200 numbers from the unique collection of music from the New World, for use in the 60 programs to be played at Sevilla, Spain, next spring.

Capt. Stannard will visit the Ibero-American Exposition, which will be held in Sevilla, Spain, next spring.

Meanwhile, the nominee's schedule for his first speaking trip in behalf of his presidential candidacy is rapidly taking definite form, and probably will be ready for announcement some time this week.

While this is being prepared, particular attention is being given to the creation of a reference library for installation on the governor's special train.

This library will be very extensive, covering nearly every speech the governor has made, and will contain material on national subjects from which he will draw in taking his campaign.

Classified as to subjects and indexed, the library will be well fortified with data that can be produced on a moment's notice.

Material for speeches.

While Gov. Smith will make no prepared speeches during the campaign in the belief that extemporaneous ones are more effective, he is looking forward to having statistical and other material at his finger tips in transit for notation purposes.

Material for the library is being collected by many of the nominee's advisors and office assistants in Albany and New York.

The library is expected to be ready for installation on the governor's special train schedule in Albany.

As to the latter, he is keeping mum and about all that is known is that he will travel himself in the special car of Mr. Kenny, called the St. Nicholas. Mrs. Smith will not accompany him.

8 Injured in Crash Of Baseball Train

Baltimore & Ohio Cars Split Switch on Way to Game at Cincinnati.

Onley, Ill., Sept. 2 (A.P.)—Eight persons were injured, two critically, early today when a Baltimore & Ohio train carrying St. Louis fans to Cincinnati for the Cardinals' game, split a switch near here. Five coaches were derailed. The injured, all St. Louis residents, were brought to the city hospital.

The injured are Clarence Horbitch, possible internal injuries; condition critical; and a girl, possibly internal injuries. A woman, Mrs. Mabel Hubric, sprained wrist. Miss Mabel Hubric, a man and a baby, whose names were not learned, were said to be not seriously hurt, as was a woman known as Mrs. Louise, proprietor of a St. Louis beauty shop.

The train was made up of day coaches, and most of those aboard were awake, and were chatting at the time of the derailment.

man, and his helper, were working on the tracks. Schorling sent the helper to Hunters Point station, three blocks distant, where Capt. George Sullivan and Sgt. John Rehl and Tom Polski were waiting. The helper reported there had been another subway accident.

The sergeant and patrolmen hurried to the emergency exits, where other passengers, gasping for breath, were crawling up through the opening.

The policemen made masks of handkerchiefs and guided by the rays of their flashlights picked their way through the smoke and jammed passengers, in bucket brigade fashion, to volunteer rescuers along the tracks.

A few minutes later the rescue squads arrived with ambulances from St. John's, Flushing, Green Point, Reception and Metropolitan hospitals.

Most of the unconscious men and women were carried to the Hunters Point station, where police and ambulance surgeons had laid out a line of stretchers. Rescuers were required to keep back a large crowd at the emergency exit, as well as motorists who had blocked the scene.

Police reported that more than a dozen persons were attended for bruises inflicted in the stampede to leave the train.

Dynamite Boys Find Stir Up Neighbors

Six Perilous "Firecrackers" Were Unearthed in a Vacant House.

Twelve-year-old Leonard Williams, of 1032 Thirty-first street northwest, and his 9-year-old brother, Harold, of 3108 M street northwest, yesterday caused their neighbors and the police considerable trouble when they accidentally exhibited six sticks of dynamite, which they had a vague idea were firecrackers.

When the police had cautiously but quickly unbundled the youngsters of the explosives they were told by the boys that the dynamite had been found in an old ice box in a vacant house at 1042 Thirty-first street northwest, where they had been playing.

The boys carried the dynamite to the Seventh Precinct Station. The police could find no clue as to how it came to be left in the house nor how long it had been there.

The police will check up on see who last occupied the house. The boys have frequently played in the rear yard and yesterday decided to explore the house itself, the discovery of the "firecrackers" resulting.

Gov. Smith Passes Day Playing Golf

Managers Mapping Out His Schedule for Tours While He Rests.

Managers Mapping Out His Schedule for Tours While He Rests.

Albany, N. Y., Sept. 2 (A.P.)—Pending completion of his speech-making itinerary, Gov. Smith will continue to spend his time in the country, his campaign in the seclusion of the executive mansion here, and on the golf links.

With Mrs. Smith and his friend, William F. Kenny of New York, a house guest, the Democratic presidential nominee attended mass this morning at the Cathedral of the Immaculate Conception, and in the afternoon they went for a drive in the country.

Political cars were cast aside entirely and the same program will be followed on tomorrow's Labor Day holiday, when the governor joins the rest of Albany's sport-inclined on the golf course.

Mapping Out Schedule.

Capt. C. D. Alway, commanding officer of the Army Band, has arranged for the equipping of the band with a new set of instruments for use at the exposition.

Meanwhile, the nominee's schedule for his first speaking trip in behalf of his presidential candidacy is rapidly taking definite form, and probably will be ready for announcement some time this week.

YONGS DENOUNCES SMITH'S PASTOR Foe

Speaks in Rhode Island as Dr. Straton Renews Attacks From Pulpit.

Called "TAMMANY TOOL"

Rocky Point, R. I., Sept. 1 (A.P.)—Senator Millard E. Tydings, of Maryland, chairman of the speakers' bureau of the national Democratic committee, opened the Smith campaign in Rhode Island today with an address here, which his listeners regarded as an attack on the Rev. John Roach Straton, who from his New York pulpit has twice called Gov. Smith "the bitterest foe in America today."

"Gov. Smith need not fear the attacks directed at him," Senator Tydings said. "Take the activity of some publicity seeking clergyman. There is nothing so despicable as a democratic government as the attempt to assassinate a man's character in a place where he has no chance to defend himself from the attack made upon him."

"The clergyman, whatever his sect or creed, who uses his pulpit as a place of his political candidacy is rapidly taking definite form, and probably will be ready for announcement some time this week."

While this is being prepared, particular attention is being given to the creation of a reference library for installation on the governor's special train.

This library will be very extensive, covering nearly every speech the governor has made, and will contain material on national subjects from which he will draw in taking his campaign.

MRS. COOLIDGE SAD AS SON STARTS OUT

John Leaves Parental Roof Today to Make His Own Way in World.

Plans Are Kept Secret

Superior, Wis., Sept. 2 (A.P.)—Then son, John, accompanying them for the last time this summer, President and Mrs. Coolidge worshipped once more today at the small church at Brule.

Tomorrow evening John will leave the family roof and start out on his own to earn his living. At the thought of the separation, Mrs. Coolidge's eyes shined tears in church today as she clung to her son's arm.

At the end of the service she approached John Taylor, the blind lay preacher, whose sermons the Chief Executive has been attending all summer, and said:

"This is the last time John will be here."

Then with downcast eyes she quickly left the small church at her son's side and sat in the waiting car.

John Coolidge will entrain tomorrow night for an Eastern destination, which the White House has insisted on keeping confidential. It is understood, however, to be Hartford, Conn., which he well knows on account of his numerous previous visits there as guest of Gov. Trumbull of that State.

The church was jammed with visitors as usual and the customary crowd massed outside the chapel.

50 NATIONS ATTEND LEAGUE ASSEMBLY

Disarmament Is Dominating Problem at Ninth Annual Session Opening Today.

U. S. IN IMPORTANT ROLE

Geneva, Sept. 2 (A.P.).—Disarmament supremely dominates all discussion on the eve of the ninth assembly of the League of Nations.

Admittedly difficult of solution, it stands out all the more for this reason as a problem demanding urgent attention from the delegates of some 50 nations who have gathered in Geneva for the world parliament opening tomorrow. The Briand-Kellogg pact re-nouncing war has pushed disarmament to the front because it is regarded as a big incentive to the reduction of armaments.

Linked with disarmament is the problem of weaving the peace fabric more closely so that the Kellogg pact and the league covenant will be supplemented and strengthened. Many delegates were heard to say today that the solemn engagements entered into in Paris renouncing war constitute magnificent steps in the advance, but that governments must further commit themselves against war by binding pacts of nonaggression, and agreeing to settle all disputes by arbitration.

U. S. Dominates Situation. Model pacts for the regulation of conflicts by pacific means will be submitted to the assembly in the hope that nations will be induced more widely to accept them.

The Kellogg pact was referred to today as indicating the powerful role played by the United States in the international drive for disarmament. "The United States holds everything in the hollow of her hands," one prominent European statesman told the Associated Press correspondent, emphasizing that nothing big or worth while in the domain of international politics can be achieved without American collaboration. He declared, like many others, that the immediate prospects for disarmament depends upon the fate of the Kellogg pact.

France, England, Italy, Japan, and the United States, Italy and Japan, but especially the United States, nothing can be accomplished.

World Statesmen Gather. Chancellor Muller, of Germany; Premier Mackenzie King, of Canada; Foreign Minister Briand, of France; and almost a score other foreign ministers are here ready to receive the delegates.

The Polish-Lithuanian dispute over the sovereignty of Vilna is a problem that is causing the statesmen some concern and may be solved by the universal peace conference.

The great importance of the league gives to American participation in it an official importance issued today outlining the agenda of the assembly. It consists chiefly of a summary of the extensive collaboration by the American government and its citizens in various league activities, such as disarmament, social reform, health, and codification of international law. Many hundreds of Americans are seeking tickets to the opening of the assembly out of every eleven applications can be granted.

15 Cruisers for U. S. Predicted by Sproul

Chicago, Sept. 2 (A.P.).—Representative Elliott W. Sproul predicted today that a bill calling for fifteen cruisers of 10,000 tons each and an aircraft carrier will be passed by the Senate during its December session. He made his prediction in a speech before the national convention of the Fleet Reserve Association, an organization of former Regular Army men who have seen at least eight years' service.

Sproul declared: "Representative Fred Britten, recently appointed chairman of the naval committee, is now in Europe this summer, not on a vacation trip, but to study the naval program of Europe and the naval trend of power on the continent. Thus he will be able to tell Congress what it should do at home to make our Navy the equal of any in the world."

Crew of Steamer Saved After Crash

Boats Search for Unmanned Vessel in Path of Pacific Coast Ships.

Coast Ships.

Seattle, Wash., Sept. 2 (A.P.).—Three boats started in search today for the steamer Floridian, supposedly floating unmanned in the course of shipping off the Washington coast, 65 miles south of Tatoosh.

The freighter collided last night in a heavy fog with the steamer Admiral Flske, which took off the crew of the disabled vessel. The Admiral Flske stood by until 4 o'clock this morning when it was assumed the lost sight of the Floridian in the fog and put back to Seattle.

The Admiral Flske was leaking slightly, but reported she had no need of assistance.

San Francisco, Sept. 2 (A.P.).—The steamer Calmer was disabled off the California coast 100 miles north of San Francisco today as a result of a collision with the British vessel, Canadian Rover, in a heavy fog at 5:30 o'clock this morning.

Advices from the marine department of the chamber of commerce here said the Calmer was struck amidship, and the Canadian Rover, with its bow stove in, was standing by the disabled vessel, a schooner, Chakola, left Eureka for the scene.

CHARGING SWINDLE, WOMAN DISAPPEARS

Pasadena Society Leader, Who Accused Fellow Townsmen, Can't Be Found.

MURDER INQUIRY PLANNED

Los Angeles, Calif., Sept. 2 (A.P.).—The disappearance of Mrs. Frances G. Knoll, Pasadena society woman, on the eve of a scheduled appearance before the Pasadena city council, has led to a complaint charging two men with defrauding her out of more than \$75,000 worth of property, resulted in an investigation being opened today by the sheriff's office here.

The authorities said Mrs. Knoll three weeks ago asked for an investigation of certain Pasadena operators and attorneys who she claimed had had control of her finances. After investigation, Mrs. Knoll was to appear at the district attorney's office but has not been seen since.

Capt. Norris G. Stensland, of the sheriff's office, announced that unless Mrs. Knoll is found within the next ten days the entire matter will be placed before the grand jury with a request that a murder indictment be issued against the men accused of embezzling her funds.

Girls Load Shotgun; Robber Shot Dead

Slip From Cafe in Course of Holdup and Find Weapon; Pass It to Man.

Chicago, Sept. 2.—An unidentified robber undertook to hold up patrons of the Piccadilly restaurant in the southern city limits, early today and paid for his adventure with his life. During the excitement William Reddie, a musician employed in the place, slipped a shotgun into the hands of Mrs. Klee, wife of the proprietor, and her two daughters, 19 and 17, managed to slip into a side room, where the girls found a repeating shotgun resting on wall brackets. One of the girls knew where shells were kept, and she rammed three into the gun and handed it to Reddie. "Kill the bandit!" urged Mrs. Klee, as the four crept toward the barroom.

Barroom. Mrs. Klee, the proprietor, together with a few guests, was backed against the wall, with his hands up. He saw the muzzle of the shotgun pointed through a sliding panel. "Let him have it," he commanded. The holdup, sensing danger, pushed his pistol into Klee's abdomen and pulling the trigger, but it descended upon a "dead" cartridge. At the same moment Reddie fired and the robber fell dead. The scuffle that followed the telephone receiver was knocked from his hook and an operator in the Oak Lawn exchange heard the commotion and notified the police.

Civilian Club Speaker

J. H. McLaughlin, president of the American Wholesale Grocers Association, will be the principal speaker at the Chicago Chamber of Commerce luncheon tomorrow at the Lafayette Hotel. He will talk on the general subject of merchandising, with special emphasis on chain stores.

DIED

DE BARL—On Sunday, September 2, 1928, at his residence, 1212 F St. N.W., MICHAEL DE BARL, 62 years old, died. Burial at Mount Olivet cemetery.

FUNERAL—On Tuesday, September 4, at 3 p. m., from the residence of her daughter, Mrs. C. W. De Barl, 1212 F St. N.W., to the Mount Olivet cemetery.

FOULKE—On Friday, August 31, 1928, at his residence, 1212 F St. N.W., F. W. FOULKE, 62 years old, died. Burial at Mount Olivet cemetery.

HAIN—Sunday, September 2, in Asheville, N.C., at his residence, 1212 F St. N.W., HANNAH HAIN, 62 years old, died. Burial at Mount Olivet cemetery.

KAHLE—Entered into the joy of her Lord, on Sunday, September 2, at her residence, 1212 F St. N.W., KAHLE, 62 years old, died. Burial at Mount Olivet cemetery.

LOCKART—On Sunday, September 2, 1928, at his residence, 1212 F St. N.W., LOCKART, 62 years old, died. Burial at Mount Olivet cemetery.

NORWAY—On Sunday, September 2, 1928, at his residence, 1212 F St. N.W., NORWAY, 62 years old, died. Burial at Mount Olivet cemetery.

REDDING—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., REDDING, 62 years old, died. Burial at Mount Olivet cemetery.

WATKINS—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., WATKINS, 62 years old, died. Burial at Mount Olivet cemetery.

YAYO—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., YAYO, 62 years old, died. Burial at Mount Olivet cemetery.

WATKINS—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., WATKINS, 62 years old, died. Burial at Mount Olivet cemetery.

YAYO—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., YAYO, 62 years old, died. Burial at Mount Olivet cemetery.

WATKINS—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., WATKINS, 62 years old, died. Burial at Mount Olivet cemetery.

YAYO—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., YAYO, 62 years old, died. Burial at Mount Olivet cemetery.

WATKINS—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., WATKINS, 62 years old, died. Burial at Mount Olivet cemetery.

YAYO—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., YAYO, 62 years old, died. Burial at Mount Olivet cemetery.

WATKINS—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., WATKINS, 62 years old, died. Burial at Mount Olivet cemetery.

YAYO—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., YAYO, 62 years old, died. Burial at Mount Olivet cemetery.

WATKINS—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., WATKINS, 62 years old, died. Burial at Mount Olivet cemetery.

YAYO—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., YAYO, 62 years old, died. Burial at Mount Olivet cemetery.

WATKINS—On Saturday, September 1, 1928, at his residence, 1212 F St. N.W., WATKINS, 62 years old, died. Burial at Mount Olivet cemetery.

COOLIDGE AND CALLES POLITICAL ACTIVITY

President Is Not Expected to Take Stump in Fight to Elect Hoover.

CAN NOT SHIFT INFLUENCE

By CARLISLE BARGERON.

Speculation as to what President Coolidge will play in the campaign for the White House is gradually giving way to the realization that he will play none. It is not now believed that he will make a single speech and it would not be surprising if no utterances of any kind came from him.

Mr. Coolidge is, of course, interested in the campaign, but he would not be willing to help out if he thought there was anything particularly he could do. It has always been doubtful, though, as to the advisability of his making a campaign speech.

He has been a great asset to the party since he became President, particularly in the troublesome days of 1924. It is recognized, and even now, that his presence at the campaign is a great rallying cry. But the question is whether he would do any good by making a speech. He does not have to do so to give standing to the property cry.

Doubt Strength's Transfer.

Mr. Coolidge's popularity has been his own, it is pointed out. It is not of the kind that could be transplanted to Mr. Hoover or any other candidate. He had his hold upon the country evidenced by his tremendous vote in 1924 and the fact that it was with reluctance that some party leaders let him go this year.

Yet there are few who believe that he could transfer this strength to any other candidate. It is not that kind of transferable strength. It is "Coolidge property" and the Republicans are now trying to make "Coolidge property" sound just as pleasing to the ears. It does not, of course, for the reason that Coolidge property is not a thing that can be transferred.

Mr. Coolidge would be entirely out of his role in trying to elect his successor. It is probably for this reason that he has been so quiet in the pre-convention campaign. Republican leaders tried with every means at their command to learn his choice. The chances are that if his choice, if any, had been made known, it would have been an awful howl.

Coolidge Backs Hoover.

Mr. Coolidge's leadership has been of the kind, in fact, that many observers are prone to believe. He was more successful when he let the reason go out than when he wanted one. He really wanted another.

There are those among the Republicans who are inclined to believe that his attitude may have been better if he had been more vocal. He has been a quiet man, but he has been a man of action.

Of course, now that the Republicans have nominated Mr. Hoover, the President's attitude may have been better if he had been more vocal. He has been a quiet man, but he has been a man of action.

There was considerable talk of getting Mr. Coolidge to speak in Massachusetts where the election is expected to be very close. That is one State where the Republicans are expected to get a majority.

Mr. Coolidge's attitude may have been better if he had been more vocal. He has been a quiet man, but he has been a man of action.

THE CALLES MESSAGE.

In many respects President Calles' address to the Mexican Congress is a remarkable document. So persistent have been the innuendoes that he was interested in extending his tenure of authority over the Mexican people either through appointment as provisional president or through extension of his present term that the opinion had become more or less prevalent that the new Mexican Congress would be merely a dummy body so far as the important problem of designating a successor to the assassinated president-elect is concerned. President Calles, however, has delivered a message that leaves no room for doubt. "I shall not seek prolongation of my term either by accepting a prolongation of my present term of office or my appointment as a provisional president," he says. "Never, for any reason, under any circumstances, shall I return to the presidency," he says further.

Mexico unquestionably faces a critical moment in its history. Even though many of the policies and innovations of the Calles regime may be severely criticized it must be admitted that during recent months there were signs of the dawn of a new era. In the president-elect, Gen. Alvaro Obregon, Mexico chose a strong man to succeed President Calles. His assassination precipitated a situation in which the forces of revolution and personal ambition might easily burst forth into the flame of conflict.

President Calles, in his message, indicates that he realizes well the crisis that is at hand and he delivers an impressive charge to the Mexican Congress that it be activated only by the highest and most patriotic motives in making provision for the election of his successor. The presidential elections, he says, should be called at a date that will permit every one who desires to run ample time in which to conduct his campaign. "In selecting a provisional president," he says, "it is not the man himself but the exaltation of the law that can and must be the source of strength, prestige, loyalty and authority for his success as executive of the nation."

The document reveals the fact that in President Calles Mexico has a true patriot. His followers, undoubtedly, are legion. His words, to them, carry great authority. Mexico's crisis will come in whether or not its Congress and its people will follow the sane course that President Calles has indicated.

CHINESE PRODUCTS EXHIBIT.

It would be well if Chinese wares could be made better known in this country. The recent exhibition of things made or produced in the country, which was held at Shanghai, was so useful that it has been suggested that a traveling exhibition should be sent through China, to exploit American wares and inventions. Similarly, a touring exhibit of Chinese articles would be of interest and profit to Americans. Additional value would be given to such an exhibition if the process of production and manufacture could be shown.

There is much to be said for the fairs of old England, which brought exhibitors from all Europe and beyond. The commercial world can ill afford to lose the appeal to the eye. Nothing could so well promote appreciation of modern China and its activities as an exhibition carried to the principal cities of the United States.

BIBLE SOUND MOVIES.

Scarcely has the practicability of sound movies been demonstrated, than the paramount source of dramatic and story interest is being turned to for stories. Always the best seller, the Bible now gives promise of competing on the screen with secular stories which lack the background that is provided the stories drawn from the inspired narrative. Those whose minds go back to the very earliest days of the movies recall that the "Life of Moses" thrilled them as there appeared upon the screen, fitfully under the limited resources of the filming of that day, the scenes of that immortal biography. No writer of lasting fiction in the English tongue but has turned to the Bible for plots and human situations.

The announcement, therefore, that Hollywood will presently see the screening of Bible pictures with the dialogue synchronized, will attract the attention of more persons than any other announcement of a picture project that could come from that source. The religion film trust and associated concerns which have entered into a contract for the execution of Bible stories with the talking feature are represented as having obtained the cooperation of leading clergymen, and the company is

scheduled to leave this country within a few weeks time for the Holy Land, there to film a picture that will have to do with the first tragedy in human annals, that of Cain at the hands of his brother Abel.

Unsectarian, the lines of cooperation extending through Christian and non-Christian faiths, the project seems to have nothing of propaganda about it, but aims to place these great human stories upon the screen of the world and to afford to their characters revitalization that they may enact their roles and recite their sentiments to multitudes. This is missionary enterprise in the sense of human culture, the acquainting of multitudes with the dramas that have had so much to do with the molding of mankind and the course of nations. Educationally and entertainingly the project has particular appeal.

RUSSIAN RESCUE WORK.

The icebreaker Krassin, the stoutest vessel in the world, is hurrying preparations for another attempt to find and rescue the men who were carried away by the gas bag of the wrecked Italia. The Krassin will also make further search for signs of Capt. Roald Amundsen and his five companions. Only a remnant of daylight remains in the Arctic, and the ice will soon be impenetrable, even to the powerful Krassin. But it is hoped during the next few days that some of the survivors may be snatched from the jaws of death.

The entire world is grateful to the Russian government for its energetic aid in Arctic rescue work. The Russians have not been half-hearted in this work, but have labored unceasingly, and with their knowledge of Arctic conditions and their superior equipment they have succeeded in extricating part of the Noble party as well as airmen who went out to rescue and had to be rescued themselves.

The Russian Soviet and the Italian Fascists are anything but cordial in their relations, but in spite of political antagonism the Moscow government has risen to the duties of humanity in sending aid to the stranded Italians in the Arctic. It is a noble deed that commands admiration from even the most inveterate foe. Americans, who loathe the communist system and who look upon its devotees in Russia as deluded and dangerous enemies of civilization, are nevertheless quick to applaud the Russians for their prompt and generous work in saving dying men of another race.

CRIME AS BIG BUSINESS.

Philadelphia's exposure of organized crime conditions is startling. The revelation that conditions in Philadelphia approach those of Chicago comes as a shock. Vice, crime and corruption have jumped like a plague to the City of Brotherly Love. Are other American communities in danger?

In ten days' investigation the grand jury sitting in Philadelphia has discovered appalling conditions. A rich, powerful and highly organized ring, it says, with the benefit of efficient legal advice, has conducted an organized system of bribery, robbery, assault and murder, using crooks, thugs and gunmen. "These men," continues the report, "without detection or apparent fear of apprehension, have run the whole gamut of crime, openly and brazenly and with a degree of security unheard of in a decent community. Their activities have resulted in a condition in this county which constitutes a real menace to society and a dangerous threat to law and order."

Judge E. O. Lewis, to whom the grand jury made its report, made the following significant statement: "I can not say that, as a presiding judge, I am as amazed or astonished as you at these revelations. If we had not called a halt, Philadelphia would have been as bad as Chicago."

It is easy to say that a halt has been called, but it may not be as easy to save Philadelphia. Chicago has found that a crime system, once entrenched, is difficult to dislodge. Philadelphia may find that its criminal element has managed to dig itself in which the city was taking its usual nap, and the present campaign may be only the prelude of bitter and costly warfare.

The predicament in which Philadelphia finds itself should serve as warning to other American communities. Crime has elevated itself to the big business class, and every city is looked upon as a potentially profitable scene of operation. Philadelphia, in fancied security, has awakened to the fact that vice, crime and corruption are combined as an organized industry. Obviously the community must organize to combat the crime rebellion—for it is nothing less than rebellion.

GENIUS AND "NERVES."

In an article in Mental Hygiene, a psychiatrist who has been making a study of the conditions of foreign mission work as they exist today, reports that 11 per cent of the workers are suffering from neurotic and graver mental maladies. Only in the contemplation of present day science is this an alarming exhibit, as the definitions of the word neurotic are widely inclusive. Many persons who could be condemned under similar tests are doing the best literary, creative and constructive work of the day.

An article in a recent number of a widely read periodical asserts that Ralph Waldo Emerson, Mark Twain and a list of other celebrities were victims of an inferiority complex, and that because of their shrinking from comparison with their fellows they struck out in original lines. No less an authority than William James has built up much upon the fact that human infirmities and mental maladjustments have led to the development of genius in secular and religious fields. Alexander Pope, John Milton and William Cooper are cited as cases in point.

Without doubt, creative genius is often "out of plumb" as gauged by normal standards. From St. Paul to Thomas a Kempis, and from Martin Luther to Joseph Smith, founder of Mormonism, the same charge of epileptic or other neuralmalady has been laid. Out of weakness the men of greatness have derived their strength, and their strength often has been made perfect in weakness.

It does indeed require stern nerves to stand the wear of missionary enterprise in these times, but the same is true of many other occupations. It is not to be assumed that the writer of the article has pointed to a world source of trouble when he says that the missionary workers volunteer at the impressionable period of adolescence. If an exceptionally gifted individual has not found his creative or constructive niche during his youth he is not likely to find it thereafter. Certainly much

chaff goes into the ideals of the impressionable age, but science is not gifted to remove the chaff and leave the wheat. The enthusiasms of youth can not be organized about psychological dicta, which themselves are far from infallible.

COOLING OF THE EARTH.

Differences in temperature between one and another locality and season have nothing to do with the temperature of the earth itself which, it has been ascertained, if averaged would come to about 50 degrees. The calculation need not take account of the fact that the earth loses in temperature two degrees every 16,000,000 years. Its cooling off at that slow rate is beyond the perceptibility of man, but it is just such cooling off processes, augmented by some extraordinary solar phenomena perhaps, that account for the earth's breathing periods. The earth has an organic action in its seasonal changes, and its vast alterations through epochs of time. These great effects have been styled pulsations of climate. It is these pulsations of climate that register alterations such as that of the cooling of the earth at an incredibly slow rate.

It is nothing to jar the nerves of the earth denizen of today to be assured that in the year 16,001,928 the earth will be two degrees cooler upon the average than it is today. But that statement in terms of aeons has vast significance. It suggests that as man is not immortal in his physical nature, neither is the earth itself. A billion and a half years ago the earth had cooled enough to permit water falling from the sky to remain upon the surface and to create seas. A billion and a half years hence the earth may have become a frigid, desolate waste. The measure of time by annual periods may accent the cooling off process, but for the race itself the fact has the significance of tragedy.

CANDY AND TOBACCO.

It is rumored that the powerful British cocoa trust is about to break up. Women, who since the war have substituted cigarettes for chocolate drops, are receiving the blame. The pool was formed in 1925 and immediately became a powerful factor in the world markets. Lately, however, the margin of profit in the trade has become so small that the pool has found it unprofitable to hold large stocks. Reports to this effect from London have sent cocoa prices downward at an alarming rate.

Women, however, can not be held entirely responsible. A report of the imperial economic committee says that "while in 1914 the average annual consumption of tobacco in the United Kingdom was 2.4 pounds per head of the population, in 1927 the average consumption had risen to 3.4 pounds, indicating a rapid increase, due, no doubt, to the extension of the cigarette habit and to increased smoking by women." The head of a world-famous confectionery firm said in London the other day, however, that while women were smoking more and eating less candy, men were smoking less and their consumption of sweets had reached astonishing proportions. "Men got the habit of eating candy in the war," he said. "In the trenches when they could not smoke they always could eat some of the millions of pounds of sweets that were sent over."

If women, unwittingly, have struck a vital blow at the cocoa trust, men, equally unwittingly, have adopted habits that will enable the candy industry to survive. An appetite for candy is a contagious and progressive thing. Men who have discarded tobacco for sweets may be depended upon to influence their brothers to do likewise, and their own appetites, unless they can learn to keep their figures eternally in mind, will increase.

MERGING VETERAN AGENCIES.

Representative R. E. Updike, of Indiana, plans to introduce a bill providing for the consolidation of the Veterans' Bureau and the Pension Bureau under one head, and the abolishment of the regional offices now scattered across the country. In their stead he would create boards of eight or nine doctors to examine patients for hospital treatment and to pass upon applications for pensions. Representative Updike, himself a veteran of the World War, says that the primary purpose of his bill is to benefit the former service men. He points out, however, that the proposed reorganization would effect a saving of some \$20,000,000 a year. The American Legion and the Veterans of Foreign Wars are represented as supporting the measure.

In many respects consolidation of the two big Federal veterans' agencies seems to be desirable. The Pension Bureau is destined to become an expiring institution. As the years pass, however, the World War veteran will become an increasing charge upon the Government, and the Veterans' Bureau faces a program of constant expansion. By combining the Pension Bureau with the Veterans' Bureau it should be possible to create a stable organization, which would take care of the Civil War veteran as well as the World War veteran.

Abolition of a Government bureau, however, is no easy task. Officials of the Veterans' Bureau might support a measure calculated to increase their power or influence, but officials of the Pension Bureau would be unalterably opposed to any measure calculated to destroy its identity. Both bureaus have friends in Congress, and it does not appear likely that sufficient support could be mustered at this time to make possible the enactment of Mr. Updike's measure. The proposal, however, demands study. If, as is suggested, it would create an organization of greater service to the veteran at less cost to the Government, it should win congressional approval. But unless a combined bureau would serve veterans as well or better than they are served under the present arrangement, the fact that \$20,000,000 would be saved under the consolidation should have no bearing upon the matter.

Now they have a tractor that functions without guidance by human intelligence. Heretofore this ability was limited to pleasure cars.

Prosperous times are those in which almost everybody has a few thousand dollars to lose bucking Wall Street.

Another state that is doubtful unless there's enough money to keep it regular is the state of matrimony.

The reason why the story ends queerly is because the editor chopped off four paragraphs to make it fit.

Why Is It Necessary?

PRESS COMMENT.

It Won't Work.
Baltimore Sun: Henry Ford's working model of an old-time village is going to be somewhat hard on the people who have to dwell in the antique cottages. Roasting food before an open fire and heating water for the bath in kettles cease to be interesting after a few months, and the absence of movies, automobiles, radios, magazines and toilet soap will be noticeable. In fact, it looks as if young folk will miss the whole point of this effort to show how the early Americans lived. They won't call that living.

As Tunney Knows.
Springfield Republican: A champion who really insists on privacy should let himself be knocked out before starting on his travels.

On the Banks of the Brule.
Springfield News: Maybe those little Brule River insects that have been stinging President Coolidge are presidential mosquitoes. The bee has gone elsewhere this year.

He Can Aspire, Anyhow.
Boston Transcript: Secretary of Commerce Whiting is another new public official who declares that his door will "always be open" to newspaper men. If Mr. Hoover's successor sticks to that decision, he, too, may in time aspire to the Presidency.

Facts and Statistics.
Atlanta Constitution: Having heard from both party leaders we are prone to admit that facts are stubborn and statistics are pliable.

Optimism.
Rushville News: One haven't given up hope that one of these days some real smart scientist is going to discover valuable vitamins in a food that we really enjoy eating.

Fools Rush In.
Indianapolis News: One would think that after all the distressing—sometimes fatal—accidents that have occurred, even the most impatient motorist would find it wise to approach a road crossing that was hidden by tall corn with some caution.

Hawaii's Population.
Louisville Courier Journal: The population of Hawaii has increased 15,847 the last year and now totals 348,787. But this does not mean that the native race, that was dying out, is coming back. More than half the population, 186,470, are Filipinos and Japs. The former have taken their place in the lead among aliens, numbering 51,870 to 51,348 Japs, who previously were ahead. During the year 6,894 Filipinos arrived and the alien Japs diminished by 616.

Fame.
Detroit Free Press: After a person becomes prominent enough in the news of the day a cold that would not have bothered him previously confines him to his home "with a slight indisposition."

Well Done.
Rochester Democrat and Chronicle: Our athletes ran true to form in spite of criticism. The cost of the Olympic expedition has been paid and there is a balance left of \$50,000.

Smart Lady.
Athlone Globe: An Athlone woman always has spending money. Twice a week she threatens to go back to her mother, and her husband always gives her enough money for train fare.

Then and Now.
Florida Times Union: Ancient drunks were out of golden cups. Nowadays it takes the value of a golden cup to get a drink of real wine.

Heads It Is.
Baltimore Sun: That dollar with two "tails," which has been found in a Federal Reserve shipment from the West, arouses much wonder—not as to its origin, of course, but merely why the maker of this device for taking the chance out of gambling ever let it get away from him. Did one of his presumptuous companions pick his pocket and fall to notice the unique nature of the haul? And where are

If He Thinks All Dogs Kill Sheep, He Must Herd His Little Flock Alone

By ROBERT QUILLEN

WHEN a "city slicker" visits a village to peddle his wares, he invariably selects as victims the small-fry business men who have prospered by shaving dimes and think themselves shrewd and hard to fool.

They are easy victims because they think all rich men got their wealth without earning it.

"I am slick," one of them will say to himself, "and yet I'm not rich. That's because I haven't yet found the right opportunity to get something for nothing. The big fellows were slick enough and crooked enough to get theirs for nothing; and if I'm slick enough and crooked enough, I'll get mine for nothing."

Their philosophy dooms them forever to be small-fry business men; it is the philosophy of failure.

When you hear a man say all prize fights are "fixed" and all races "framed," you need not look up his commercial shrewd; he hasn't any rating.

Look over the field of your acquaintances and note the assets of the very smart ones who see trickery in everything and suspect the motives of everybody; without an exception they are men born to fail—men in debt, without credit, blaming their poverty on hard luck.

Or lay aside chivalry in the interest of science and study the women who see evil in every act of their sisters—who are suspicious of men and women alike, and question the sincerity and honor of all.

Without an exception they are low-grade women; quarrelsome neighbors, nagging wives; foolish mothers—community pests, despised and avoided by all who are wholesome and intelligent.

Man doesn't always form his own opinions, but his opinions always form him.

And if he handicaps himself with the opinion that everybody is dishonest and insincere and full of trickery, he is doomed to failure just as inevitably as night follows day.

He is a wise and sophisticated man who can recognize the knave in a group of honest men; but the "smart guy" who thinks all men are crooked is no more intelligent than the "sucker" who thinks all men are honest.

Successful men are men of faith.

If there is no vision, the people perish.

The very slick gentleman who "sees through" his fellows and sneers at all of them will be rich when his luck changes; but in the meantime he contrives to get along without a job, for his wife takes in boarders.

(Copyright, 1928.)

the other two halves that may also have been joined together? But the moral is clear. Until the other synthetic coin turns up it will be just a little safer in the Rocky Mountain region to call "heads" from now on.

The New Heavyweight.
Macon Telegraph: The New York City thief who stole a 500-pound stone lion will have to surrender the belt to the Rhode Island slicker who got away with 30 tons of crushed stone without leaving a trace.

Poor Business.
Florida Times-Union: Indiana mill started to manufacture dress cloth that could not be seen through. Finding that there was no sale for it, manufacture was discontinued.

Tip for Al.
Atlanta Constitution: If Horace Greeley were alive today he would advise to go West and get the farmer vote.

Volstead Curriculum.
Springfield Sun: College courses these days seem to include "not only Greek, but a little Scotch."

Beautiful "Pipe Dream."
Detroit News: In Utopia one first-class cantaloupe is a sign the crop is ripe.

Very Good Company.
Indianapolis News: At any rate, all the other nations that in the Briand-Kellogg treaty III be in good company.

How About Corn?
Boston Transcript: The temperance cause is spreading in Kansas. The women of the State have inaugurated an extermination campaign against dandelions and a campaign is on against elderberry bushes and rhubarb plants.

Who Said They Could?
Cincinnati Enquirer: Some of these political forecasters are in for a big disappointment next November. Both parties can not win.

They Laugh Last.
Brooklyn Eagle: Since 1896 French science has relied on Lyons University experiments dealing with the effect of wines and liquors on guinea pigs. It

LETTERS TO THE EDITOR.

Cherrydale Politics.

To the Editor of The Post—Sub: Out here in Washington's most flourishing and progressive suburb we are in the throes of a national election. You in the Capital City are, fortunately, spared the emotional upset of the quadrennial American quarrel. But we, Sub, are not. No, we stagger under the crushing responsibility of deciding who shall guide the destinies of our fair land for the coming four years.

In this nominally Democratic State of Virginia, of which, Sub, I have the honor to be a leading citizen, Cherrydale occupies the fairest portion of Arlington County. Political opinion is fairly well divided. We have some 200 Democrats, and 197 Republicans (193 of them wets). All of the Democrats are dries. In fact, ever since Al's speech, the whole Democratic party has been dry. As a dry reformer Al is easily the leading figure in history. In one speech he reversed the convictions of some 25 million people. That is, assuming that many Americans ever had convictions which could be reversed.

There may be some wretched persons, Sub, who are utterly oblivious to the seriousness of the present situation. But, aristocrats like you and me can view it only through surges of emotion. The static in this campaign is dreadful. If Al says black is black somebody is sure to broadcast next day that Al says black is white. And, of course, Sub, down here below the Maryland-Pennsylvania boundary line the distinction is important.

Here in Cherrydale, Sub, we are hearing a good deal about Al repudiating the Houston platform. I rise to inquire, Sub, what there is new about that. It is, perhaps, a trifle previous. Most politicians wait until after inauguration before repudiating their platforms. I reckon Al had a few spare moments on his hands and decided to clean up a few odd jobs that had to be done some time or other. At all events, Sub, that dry plank looked like the result of too many cooks, quarrelling over the joint of meat, some wanting to roast it, others insisting on boiling it, and some resolved to turn it into soup. The effect would be stew. Only they wouldn't use that word at Houston because of its alcoholic flavor.

So, Sub, I am going to close, trusting that these few random notes from the thickest of the political fray will give you some news of how the battle rages. If I survive I shall communicate with you again.

COL. MAYWOOD.

Women's Shoes.

To the Editor of The Post—Sir: The present designers of women's shoes, with their protoplasmic souls, have only one object in view, and that is to give them less life. They care not to give the wearer's comfort or health, and such nefarious practices should be regulated by Congress, just as food, drugs and other important items are regulated where so much is involved. For the sake of appearances and style, women will and do permit themselves to be punished outrageously. Why will the fathers and husbands sit supinely by and see this damnable thing go on without a word of protest?

The whole motive is both sinister and selfish, and quick and suitable punishment should be meted out to those unfeeling individuals who are responsible. If the Creator, in His wisdom, had felt that it was necessary that women's heads should be so outrageously high and their toes so affectionate toward the other, the feet would have been so designed. It is the duty of our decent men to see that women should no longer go unprotected.

VOX POPULI.

Can You Blame 'Em?
Louisville Courier Journal: New York health authorities advise that the best way to get rid of mosquitoes is, not to kill them, but to prevent their breeding. Notwithstanding this warning, however, hot-blooded people when annoyed by the pests will yield to an irresistible impulse and deal them blows that occasionally result in death.

LEAD DWINDLES TO 1½ GAMES OVER MACKS; BIG PITCHER IS HERO

*Marberry Holds Champions to 4 Hits in Duel
With Zachary and Drives in Both Runs
With Single in Fourth.*

By FRANK H. YOUNG.

PITCHER FRED MARBERY no doubt is as great a hero in Philadelphia this morning as he is in Washington, for by personally beating the Yankees here yesterday, 2 to 0, he enabled the challenging Mackmen, who idled, to pull up within a game and a half of the world champions. Twenty thousand fans, by coming to witness the game and all went home well satisfied with their risk.

While Marberry, of course, had the help of his mates in his great showing, the word "personally," used above, still applies, for he acted as director of traffic in both directions, keeping the "stop" signal up at all times when the aliens were at bat, and himself driving home the two runs which beat them for the second time in three of these.

CINCINNATI, Sept. 2 (AP)—St. Louis continued on its winning streak by defeating Cincinnati, 5 to 3, today. The big hit of Sunny Jim Bottomley was mainly responsible for the victory. He drove in three runs and scored himself, after tripling to the right-field corner.

The Cardinals retained their four and one-half game lead over the Pirates. The Cubs in the race for the National league championship as the Cubs were taking the measure of the Pirates. They won, 4 to 2, today. The Cubs won the series by defeating Boston and are about two games out of second place and one and one-half games from the top Boston Red Sox. The Pirates lost their first game farther back of the three leaders.

The Cardinals left Donohue opportunely and took advantage of the single base on balls that the Red pitcher gave. Frisch got the pass in the fourth inning after Holm popped to Kelly. The speedy second baseman scored all the way from an ordinary single while Bottemley sent into right field.

Frankhouse suffered an injury to his pitching hand trying to stop Dreesen's sharp rap in the eighth inning and gave way to Johnson in the ninth.

Handy Hints To Help the Homemaker

Recipes Tell How to Use Sunday Left-Overs
Roast Beef Hash, Chili Sauce, Perfection Salad for 6 Appetizing Dishes.

By LOUISE BENNETT WEAVER.
 DINNER MENU.
 (Using Sunday's Left-Overs.)

Roast Beef Hash: Creamed Carrots
 Bread Peach Butter
 Perfection Salad
 Watermelon Coffee

ROAST BEEF HASH FOR FOUR.
 1½ cups chopped cooked potatoes
 1½ cups chopped cooked beef
 1½ cups chopped green peppers
 1½ cups chopped onion
 1½ cups chopped celery

Place the fat on a frying pan. When hot add the onions and cook slowly until a little brown. Add the remaining ingredients and cook slowly for 10 minutes. Stir frequently to prevent scorching. If a brown hash is desired, when cooked and ready for a second time, minutes directly under the broiler. This will give a crust. If a moist hash is preferred, add 1 cup milk, water or gravy and cook 5 minutes. If bacon fat is not available, use half butter and half some other fat as hard or lard substitutes.

CHILI SAUCE.
 12 red tomatoes (2½ inches in diameter)
 1 cup finely chopped onion
 1 cup finely chopped celery
 1 cup finely chopped green peppers
 1-3 cup salt
 2 cup sugar
 2 teaspoons cinnamon (powdered)
 1 teaspoon cloves (powdered)
 1 teaspoon thyme

Peel and chop the tomatoes and add the rest of the ingredients. Cook in an enameled kettle over a slow fire until the sauce becomes very thick. Stir frequently with a wooden spoon. The sauce is done when the path of the spoon may be seen for a second or so. Strain. Pour into small necked bottles, cork well and cover the corks with melted wax or paraffin. Store in a cool, dark, dry place.

PERFECTION SALAD FOR SIX.
 1 package lemon flavored prepared gelatin
 ½ cup boiling water
 1 cup vinegar
 1 cup sugar
 1 teaspoon salt
 1½ cups chopped or shredded cabbage
 1 cup chopped celery
 ½ cup chopped green peppers
 1-3 cup salad dressing

Pour the boiling water over the gelatin mixture and stir until dissolved. Add the vinegar, sugar, salt and pepper. Cool. Add the rest of the ingredients and thoroughly mix. Pour into a glass mold which has been rinsed out or cold water. Set in a cold place until firm. Unmold on lettuce leaves and top with a small amount of salad dressing. The salad dressing mixed and chilled with the rest of the ingredients in the gelatin mixture gives a pleasing flavor. The leftover salad may be served the following noon for luncheon.

Add one tablespoon of chili sauce to meat loaves, hash, vegetable soup, meat gravy, macaroni and cheese, sandwiches, fillings and cheese mixtures. The liquid flavor is most desirable.

Vanguard of Army Union Reaches City

Former Commander Ebert Confers on Plans for Capital Convention.

Past National Commander Henry Ebert, of Pittsburgh, led the way for delegates to the national convention of the Army and Navy Union, which will be held in Washington from tomorrow through Friday, when he arrived here last night.

Mr. Ebert and local officials conferred on plans for the convention immediately after his arrival. Most of the delegates, he declared, will not arrive until late Monday.

Headquarters for the convention are at the Hotel Plaza. The sessions of the convention are planned from 10 to 4 o'clock every day at the Pythian Temple. Election of officers, a joint meeting of the Union and the Ladies Auxiliary and a banquet Thursday are the chief features of an extensive program which is under the direction of Mrs. William L. Peak, national commander.

Shenandoah Park Group Holds Meet Near Luray

Special to The Washington Post.
 Luray, Va., Sept. 2.—A large gathering of State and national notables interested in establishing the Shenandoah National Park in the Blue Ridge assembled last night at Skyland, 12 miles east of Luray. The primary object of the gathering is to stimulate efforts for the rapid purchasing of mountain lands for the Shenandoah National Park.

Representatives of the meeting were sent to Gov. Harry Flood Byrd, of Virginia, E. O. Fippin, of the Virginia Conservation and Development Commission; W. C. Cannon, who is testing an active part in securing the mountain lands; State Geologist W. F. Nelson and Alexander Stewart, of the Federal Government. The guests will remain at Skyland until Monday, when G. Freeman Pollock, owner of the resort, will tender them his famous "Hollywood labor dinner."

France Bars Bullfight At Big Normandy Fair

Cherbourg, France, Sept. 2 (A.P.).—Premier Poincaré has intervened with an order prohibiting a bullfight planned in connection with the Cherbourg fair.

The promoters had advertised a real bull fight with lions, bears and a fight to the death. The Normans farmers, noted for their love of animals, were aroused and finally appeared in Paris.

Fruits Are Preserved In Nitrogen-Filled Cans

Hammonton, N. J., Sept. 2 (A.P.).—Now comes the preservation of peaches by nitrogen. In experiments choice fruit was put into tin cylinders 1½ inches in diameter and 2 feet high. The oxygen was pumped out and nitrogen forced in. The cylinders will be opened in a week. Similar tests are to be made on flowers.

ELEANOR GUNN On Fashions

Babies in Hot Season Now Lightly Clad

Too Much Clothing and Heat Found Injurious. No Longer Proper to Mix Lime With Milk. Orange Juice Used.

To the limit of space, questions pertinent to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries under proper limitations, when return stamped envelope is enclosed. Dr. Gunn will not make diagnosis or prescribe for individual disease.

By DR. W. A. EVANS.
BABIES AND HOT WEATHER.

BABIES get through the hot weather now with almost no fatal bowels troubles. They are about as healthy in this season as they are in the spring and fall and they are healthier than they are in the winter. Dr. D. Arnold thinks there are several reasons for this. Perhaps the principal one, in his opinion, is the clothing that babies now wear in very hot weather. Dr. D. Arnold says that a cotton slip and a diaper are now good form for a baby's wardrobe. We trained babies do not need the diaper and when the heat is excessive the cotton slip may be abandoned.

No longer are babies wrapped in flannel. Babies are now dressed in long or long skirts. Research has shown that too much clothing and too much heat cause bacteria to travel from the large intestine, where they belong, to places where they do not belong.

Second in importance is the passing of lime water. It is no longer proper to mix lime water with the milk. In fact, Dr. Arnold says milk is too alkaline to be a good baby food, particularly in hot weather. He says that it is better to put some acid with the milk, say orange juice, or else to feed buttermilk, sour milk, lactic acid milk or protein milk. The change from lime water to milk makes the milk next to the change in summer clothing.

Below these measures come other things to which other authorities attach more importance. One is the pasteurization of milk. Dr. Arnold says that in the cities, it has traveled several hundred miles and is several days old. Thanks principally to pasteurization, "anybody's home" is safe. It contains none of the bacteria that cause preventable diseases and not very many of those that cause diarrhea.

Close to pasteurization comes refrigeration. Milk that is not refrigerated is not the case. It is also cleaner and freer from dirt. Better knowledge of feeding also plays a part. Dr. Arnold says that babies cooler clothing and the use of acids in the diet above pasteurization and proper refrigeration.

"AID IN THE KIDNEYS."
 R. C. writes:
 "I am in the kidneys a serious condition."

1. Does it tend to make one nervous?
 2. What causes acid in the kidneys?
 3. How can one get over nervousness?

REPLY:
 1. I can give you a misleading answer what was told you. Could you mean uric acid gravel or stone in the kidneys? If so, the condition is tolerably serious.

2. Not especially.
 3. Uric acid gravel in the kidneys is supposed to be skin trouble. It is caused from too much highly seasoned food, too much meat and bread, and too little potatoes and other vegetables.

4. Training in peace and patience is the only treatment that goes to the spot.

LOOK FOR AN INFECTION.
 Mrs. L. G. writes: My baby is three years old and has enlarged glands on the neck. Please tell me what to do for them.

REPLY:
 1. May be tonsils or adenoids, sore on the face, scratches in the scalp. If I could get in with a same crowd I could tell you.

If you can find the cause and avoid or remove it, the glands may disappear without treatment.

Aside from removal of the cause, heliotherapy or light treatment is best.

So, Nan, just continue as you are, and some day you'll be thankful for it. Go on with the idea of having a good time and you will have one, and so will the fellow you are with. I wish you all the luck in the world, and some day I hope to meet you and your friends.

F. G. B., Jr.

REFORMED.
 Dear Miss McDonald: I have been reading your columns with wide interest. But I have never written to you before. I have just read "Puzzled Nan's" letter and thought I am a quite busy young man I must take time to console Nan and the rest of you.

So, Nan, just continue as you are, and some day you'll be thankful for it. Go on with the idea of having a good time and you will have one, and so will the fellow you are with. I wish you all the luck in the world, and some day I hope to meet you and your friends.

F. G. B., Jr.

Babies in Hot Season Now Lightly Clad

Too Much Clothing and Heat Found Injurious. No Longer Proper to Mix Lime With Milk. Orange Juice Used.

To the limit of space, questions pertinent to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries under proper limitations, when return stamped envelope is enclosed. Dr. Gunn will not make diagnosis or prescribe for individual disease.

By DR. W. A. EVANS.
BABIES AND HOT WEATHER.

BABIES get through the hot weather now with almost no fatal bowels troubles. They are about as healthy in this season as they are in the spring and fall and they are healthier than they are in the winter. Dr. D. Arnold thinks there are several reasons for this. Perhaps the principal one, in his opinion, is the clothing that babies now wear in very hot weather. Dr. D. Arnold says that a cotton slip and a diaper are now good form for a baby's wardrobe. We trained babies do not need the diaper and when the heat is excessive the cotton slip may be abandoned.

No longer are babies wrapped in flannel. Babies are now dressed in long or long skirts. Research has shown that too much clothing and too much heat cause bacteria to travel from the large intestine, where they belong, to places where they do not belong.

Second in importance is the passing of lime water. It is no longer proper to mix lime water with the milk. In fact, Dr. Arnold says milk is too alkaline to be a good baby food, particularly in hot weather. He says that it is better to put some acid with the milk, say orange juice, or else to feed buttermilk, sour milk, lactic acid milk or protein milk. The change from lime water to milk makes the milk next to the change in summer clothing.

Below these measures come other things to which other authorities attach more importance. One is the pasteurization of milk. Dr. Arnold says that in the cities, it has traveled several hundred miles and is several days old. Thanks principally to pasteurization, "anybody's home" is safe. It contains none of the bacteria that cause preventable diseases and not very many of those that cause diarrhea.

Close to pasteurization comes refrigeration. Milk that is not refrigerated is not the case. It is also cleaner and freer from dirt. Better knowledge of feeding also plays a part. Dr. Arnold says that babies cooler clothing and the use of acids in the diet above pasteurization and proper refrigeration.

"AID IN THE KIDNEYS."
 R. C. writes:
 "I am in the kidneys a serious condition."

1. Does it tend to make one nervous?
 2. What causes acid in the kidneys?
 3. How can one get over nervousness?

REPLY:
 1. I can give you a misleading answer what was told you. Could you mean uric acid gravel or stone in the kidneys? If so, the condition is tolerably serious.

2. Not especially.
 3. Uric acid gravel in the kidneys is supposed to be skin trouble. It is caused from too much highly seasoned food, too much meat and bread, and too little potatoes and other vegetables.

4. Training in peace and patience is the only treatment that goes to the spot.

LOOK FOR AN INFECTION.
 Mrs. L. G. writes: My baby is three years old and has enlarged glands on the neck. Please tell me what to do for them.

REPLY:
 1. May be tonsils or adenoids, sore on the face, scratches in the scalp. If I could get in with a same crowd I could tell you.

If you can find the cause and avoid or remove it, the glands may disappear without treatment.

Aside from removal of the cause, heliotherapy or light treatment is best.

So, Nan, just continue as you are, and some day you'll be thankful for it. Go on with the idea of having a good time and you will have one, and so will the fellow you are with. I wish you all the luck in the world, and some day I hope to meet you and your friends.

F. G. B., Jr.

REFORMED.
 Dear Miss McDonald: I have been reading your columns with wide interest. But I have never written to you before. I have just read "Puzzled Nan's" letter and thought I am a quite busy young man I must take time to console Nan and the rest of you.

So, Nan, just continue as you are, and some day you'll be thankful for it. Go on with the idea of having a good time and you will have one, and so will the fellow you are with. I wish you all the luck in the world, and some day I hope to meet you and your friends.

F. G. B., Jr.

1,000 Yards of Forty Inch

SATIN CREPE

\$1.95
yd.

Such noted designers as Louiseboulanger, Vionnet, Agnes and Lanvin make many of their loveliest afternoon and evening creations in Satin—for it is ideally adapted to the graceful draperies and shirred effects which are so characteristic of the new Fall modes. We therefore present this special offering of Mellow Crepe Satin, in dark and light shades appropriate for every occasion.

In This Complete Range of Colors

Flesh	Navy	Ensign
Nile	Havana	White
Orchid	Goya	Black
English Green	Moderne Blue	Independence Blue

27-Inch Printed Velveteen

\$2.95 yd.

In the approved small prints

Another reigning beauty in the court of fashion—Velveteen, printed in the popular small designs. We are showing a wide variety of new patterns in leading Fall shades. Ideal for frocks or combined with silk or wool fabrics to form one of the three-piece costumes which are the last word in correct Fall fashion.

Fifth Floor

In Geometric Designs Travel Prints

\$4.50

The printed vogue has spread to silks for Fall and Winter wear—as evidenced by the new Travel Prints—tiny geometrical designs on cloth similar to cravat silks. They wear splendidly and therefore are ideal for traveling and sport costumes, as well as being new—and very, very smart.

36-Inch Printed Cottons

29c yd.

Voiles and Dimities. Perfect for children's school dresses. Many new designs on light and dark grounds. All pretty . . . dainty . . . easily tubbed . . . and most inexpensive.

Fifth Floor

MCCALL, PRINTED PATTERNS

McCall Printed Patterns Nos. 3447 and 3423

Senior powdering back: Your wrap is simply divine, Peg! Did it take all your clothes budget?
Other Prom-Trotting Senior: Betty, I made it myself! Yes, I did! Between classes. I followed your excellent example and bought a McCall Pattern. It's a French model, Louiseboulanger. Isn't it marv!

McCall and Pictorial Review Patterns can be purchased on the Fifth Floor, adjoining the Silk Department.

SOCIETY EVENTS

The Ambassador of Chile, Senor Don Carlos Davila, who has been passing the week-end in New York, is expected to return tomorrow.

The Ambassador to France, Mr. Myron T. Herrick, accompanied by his son and daughter-in-law, Mr. and Mrs. Barnette Herrick, will arrive tomorrow on the Ile de France in New York. The Ambassador expects to remain in this country until the middle of November.

The Secretary of State, and Mrs. Frank B. Kellogg will sail tomorrow for this country on the S. S. Leviathan.

The Minister of Honduras, Senor Don Luis Bogran, who has been in New York for over the holiday, is expected to return on Wednesday or Thursday.

The Minister of Bulgaria, Mr. Simeon Radef, and Mme. Radewa expect to return this week from Williamstown, Mass.

The Attorney General, Mr. John G. Sargent, who has been in Ludlow, Vt., for some time, is expected to return today.

The Assistant Secretary of the Interior, Mr. John H. Edwards, who has been on a trip in the West, has returned to the city.

The Secretary of Commerce, Mr. William Fairchild Whiting, and Mrs. Whiting are at their home at Holyoke, Mass.

The Commercial Counselor of the Swedish Legation, Mr. Gustaf Weidel, and Mme. Weidel, who have been in Philadelphia for a short time, have returned.

The Assistant Secretary of State, Mr. William J. Carr, and Mrs. Carr returned yesterday from Europe, where they have been since early in July.

Rear Admiral and Mrs. William S. Sims will return tomorrow to Newport, R. I., from Marion, Mass., where they have been for some time.

The Assistant Attorney General, Miss Mabel Willebrandt, entertained informally at dinner on the Willard garden last evening, when she had several guests.

Gen. and Mrs. Harry Taylor
Motoring Through Canada
Maj. Gen. and Mrs. Harry Taylor, who have been motoring through Maine and Canada since the middle of July, are expected to return early this month.

Justice and Mrs. Peyton Gordon with their daughter, Miss Evelyn Gordon, who are motoring in the North, are now at Gray Rock in the Laurentian Mountains in the Province of Quebec, Canada.

Miss Janet Fish, who has been the guest of her father, Mr. Hamilton Fish, at his home at the Hudson, has returned to Washington.

Capt. Raymond Rodgers, U. S. N., who has been in Yellowstone Park for several weeks, is expected to return early this week.

Rev. Dr. and Mrs. Roland Cotton Smith, who have lately been in Bar Harbor, Me., are now at Ship's Cabin, Marblehead, Mass.

Lieut. Comdr. and Mrs. Terry Thompson, who have been in Europe since early in July, are on their way home, having sailed from Italy several days ago. They will go to Annapolis on their return.

Mrs. Edmund Pendleton has returned to her apartment at Stoneleigh Court from Virginia Beach, Va., where she has been passing several weeks. Mrs. Pendleton was accompanied by Miss David.

Mrs. Francis C. Harrington, wife of Maj. Harrington, who has passed the summer at New London, Conn., with her mother, Mrs. John E. Reynburn, will return to Washington tomorrow. Harrington passed the holiday at New London and will come home with Mrs. Harrington.

Mrs. Coleman Jennings, who has been on a visit to Cape Cod, Mass., has returned to Washington.

Mr. and Mrs. Henry Abbott will be the guests over Labor Day of Mrs. Abbott's mother, Mrs. Morton Ginnell, at her home in Buena Vista Springs, Pa.

The wedding of Miss Pauline Stockton Parker, daughter of Mr. and Mrs. William Ainsworth Parker, of Baltimore, to Mr. James Morris Carey 3d, will take place today at Center Conway, N. H. The ceremony will be held in the church. Miss Parker, who is a graduate of Bryn Mawr College, and made her debut in Baltimore, is well known here, where her mother's family lived for many years.

Mrs. Samuel Beverly Williamson has returned to her apartment at Stoneleigh Court after a visit to her home in Tennessee.

Mrs. William Stone Abbott is passing some time at Saratoga Inn, Saratoga, N. Y., accompanied by her daughter, Mrs. John R. Story, and Miss Jacqueline Story.

Mr. and Mrs. Hearne O. Adams, of Dallas, Tex., and New York City, announce the engagement of their daughter, Miss Marjorie Adams, to Mr. Chester Lockwood, son of Mrs. Thomas H. Lockwood, of this city.

Mrs. P. Lee Phillips and her daughter, Miss Mary Lee Phillips, who have been on the North Shore for several weeks, have returned to their home.

Mrs. A. H. Cardwell, accompanied by her son, Mr. Creed Cardwell, who motored to Canada about two weeks ago, will return tomorrow.

Mrs. Stanley Carr Joins Mother at Greenbrier.
Mrs. Stanley Carr has joined her mother, Mrs. Stuart Hanna, of New York, at the Greenbrier at White Sulphur Springs, W. Va.

Mrs. McChord Boyle has returned from a visit to Atlantic City, N. J.

Mr. Waverly Taylor is at Virginia Beach, Va.

Mrs. O. C. Portner, who has been visiting in Gloucester, Va., where her sons, Robert and Jack, are attending Dr. Blair Spencer's camp, will return to Virginia Beach, Va., on Tuesday. Mrs. Portner and her sons will remain until the end of the week before returning to Washington, and will stop en route to visit Mrs. Portner's sister, Mrs. Henry D. Flood, widow of Representative Flood, at their country home, Elmdon, at Appomattox.

Mr. and Mrs. Thomas P. Littlepage have returned from Europe and will pass September and October at their country home in Prince Georges County, Md. They have visiting with them their daughter, Mrs. William Bartlett Fletcher, Jr., wife of Lieut. Fletcher, U. S. N., of Coto Soco, Panama.

Mr. James E. Freeman, Jr., of Washington, son of the Right Rev. James E. Freeman, Bishop of Washington, was host at dinner last night at the Willard.

Mrs. L. M. Francis and her daughter, Elnelwyn, and Miss Clara Margaret Morley, all of Buffalo, N. Y., arrived at the Mayflower on Saturday morning from the White Sulphur Springs, where they have been the guests of Mr. and

Harris & Evans.
MISS AILEEN O'DONNELL, daughter of Mrs. John C. O'Donnell, whose engagement to Mr. Harry W. Baltazzi has been announced.

Mrs. Samuel Rixby. They will remain until tomorrow.

Mrs. Lee Paschall and her daughter, Miss Anna Lee Paschall, of Richmond, Va., are also at the Mayflower on their way home from Cape Cod, Mass.

Mr. Manning F. Stead is at the Belmont Hotel at Bar Harbor, Me.

Mrs. Haynes Ellis, wife of Capt. Ellis, of the U. S. S. Arkansas, with their children, has returned to Old Point Comfort, Va.

Maj. and Mrs. C. C. Early, of Raleigh, N. C., who have been at the Mayflower since Friday, went yesterday to Raleigh where Maj. Early is on duty at the North Carolina State College. Maj. and Mrs. Early have just returned from a six months' trip to Europe.

Lieut. Comdr. and Mrs. O. C. Badger have taken a "house at 3821 Jennifer street, Chevy Chase, where they will pass the winter.

Miss Dorothy Wooden will remain at Virginia Beach until tomorrow.

Mrs. William B. Carr has joined her husband, Dr. Carr, at the Franklin Hall Apartments in Spokane, Wash. Dr. Carr went to Spokane last spring to take over the practice of Dr. Stanley H. Titus during the latter's illness, and will remain there to be associated with Dr. Titus. Mrs. Carr before her marriage was Miss Marian Hill.

Miss Beatrice Littlefield is the guest of Mr. and Mrs. B. W. Dudley at Annapolis, Md.

Mrs. L. W. Richardson will entertain informally at luncheon and bridge at the Grace Dodge Hotel on September 11.

Mr. and Mrs. Robert J. Adams have returned from Saratoga Springs, N. Y., where they have been for the past week.

Mrs. C. F. Grondona and her son, Mr. Richard Grondona, of San Francisco, are at the Mayflower before returning to New York to meet Mrs. Grondona's daughter, Miss Marie Grondona, on her return from a trip to Europe.

Mrs. George Cooper To Visit in Charleston.
Mrs. George Cooper will go tomorrow to Charleston, W. Va., to be the guest of her son-in-law and daughter, Mr. and Mrs. Robert C. Jeffers.

Miss Sylvia Gordy, of the Hotel Roosevelt motored to Wernersville, Pa., and is registered at Galen Hall.

Among the guests at the Chamberlin-Vanderbilt Hotel at Old Point Comfort, Va., are Mr. and Mrs. W. E. Irwin, Miss M. L. Raush, Mrs. Elsie L. Degan, Maj. and Mrs. Charles D. Westcott, Dr. and Mrs. F. A. Tschiffely, Mr. and Mrs. H. T. Dunbar and Miss Marguerite M. Dunbar.

Miss Norma C. Brown, of Sterling, Colo., who is passing some time in the East, is at the Grace Dodge Hotel for a visit.

Mr. and Mrs. Isaac Gans sail Saturday from New York City on the S. S. Siboney for Havana, Cuba, and they will be gone several weeks. They will stop at the Plaza Hotel in Havana. On their return, they will visit New York and Atlantic City.

Miss Helen Brown will preside at the "get-together" dinner given by the Women's City Club business and professional group, at the club house on September 12. Five minute talks on their vacations will be given by members. Reservations are now being made.

ADDRESS TO LABOR BY SMITH ON RADIO

Governor Will Talk From Brooklyn, N. Y., Over WMCA Station.

OTHERS ON PROGRAMS

The annual Labor Day address of William Green, president of the American Federation of Labor, will this year be made available to radio listeners. The speech will be delivered in Cleveland, Ohio, at 4 o'clock this afternoon and will be broadcast over more than twenty stations, including WRC.

A visible audience of 50,000 persons is expected to hear Green's speech, the occasion being the annual outing of the Cleveland Federation of Labor at Geauga Lake Park in Cleveland.

As one means of acquainting the public with its future plan of entertainment at the Earle Theater, the Stanley-Crandall Co. will occupy the air over WRC on Thursday night, when a diversified program will be broadcast from 8 to 9:30 p. m. Mixed entertainment, including Daniel Breckin and his stringed trio and Harry Fox, visiting artist, will go over the air and the program will be continued by an unusual novelty, the nature of which is being withheld to afford listeners a surprise. The broadcast on Thursday preceded the Earle's new season, which begins Saturday.

Gov. Alfred E. Smith, Mayor James J. Walker, Gen. H. H. Arnold, John J. Manning, John Sullivan and many notables in politics and in the labor world will participate in the huge outdoor Labor Day celebration which will be broadcast by WMCA direct from the grounds of Port Hamilton, Brooklyn, N. Y.

This Labor Day demonstration, to be held by the American Federation of Labor under the auspices of the Central Trades and Labor Council of Greater New York and vicinity, will be broadcast over station WMCA on 370 meters, 810 kilocycles, at 3 o'clock, Eastern daylight saving time.

Oliver Kline, contralto, and the Rollickers Quartet will be the featured artists in the Family Party at 8:30 o'clock tonight from WRC. Aldo Bonomette, tenor, a Texan, will be heard with Roy and His Gang at 8:30 o'clock tonight.

Two Gypsy airs by Dvorak will be played by the Slumber Music Octet, directed by Ludwig Laurier, during the program at 10 o'clock tonight, which opens with Mendelssohn's overture to "The Fairies." It continues with a suite by Coates, "A Summer Day," a reverie from Saint-Saens, "Suite Algerienne," and "Berceuse," by J. S. Bach.

The listeners who have been following the "Real Folks" program through WJZ, KDKA or WBAL may tune in on a session of the local grange at Thompson Corners at 8:30 o'clock tonight. Prof. Calkins, of the State Agricultural College, is expected to address the citizens of the community on "Bee Behavior."

Rachmaninoff's symphony No. 2 in E major, opus 27, recorded by the Cleveland Symphony Orchestra, will be broadcast from WMAL at 7:30 o'clock tonight. Howard Brockway, pianist, will be tonight's artist in the record period known as "Musical Moments with Famous Pianists."

Siglor WHEP will be on the air at 6 o'clock with a short piano recital by Warner Kennedy, followed by the dinner concert.
